Schedule 2

The vehicle load ratings for normal on-highway use would be:

Gross Vehicle Mass:	33,000 kg
Gross Combination Mass:	N/A kg
Maximum Front Axle Group Mass	16,000 kg
Maximum Rear Axle Group Mass:	19,000 kg
Maximum Towed Mass (Braked):	N/A kg
Maximum Towed Mass (Unbraked):	N/A kg

Comments

This Chassis Rating is at manufacture / modification / inspection. Any subsequent modification may require a new Chassis Rating to be issued by an NZTA appointed HVEC Certifier. This Chassis rating does not imply the vehicle meets the Heavy Vehicle Brakes Rule 32015 and this remains the responsibility of the operator.

Dated this 7 day of July 2017

Signed:

Name: WAYNE COOPER (HVEC)
Certifier ID: WC
